ORIGINAL TEXT

A mobile phone is a portable electronic device that allows us to call, text, and connect with people anywhere in the world. It acts like a mini-computer that helps students learn through educational apps, search for information, and stay entertained with games and music. However, it should be used wisely and in moderation so it doesn't distract from studies, sports, and outdoor activities.

SIMPLIFIED TEXT

A mobile phone is a portable electronic device. It allows us to call, text, and connect with people anywhere in the world. It acts like a mini-computer. It helps students learn through educational apps. It also helps them search for information. They stay entertained with games and music. It should be used wisely. Use it in moderation.
